

**NOTE: This update is for the BBX V9.xx version of easyOSHC
Do NOT apply this update to Version 10.xx**

Installing the Update:

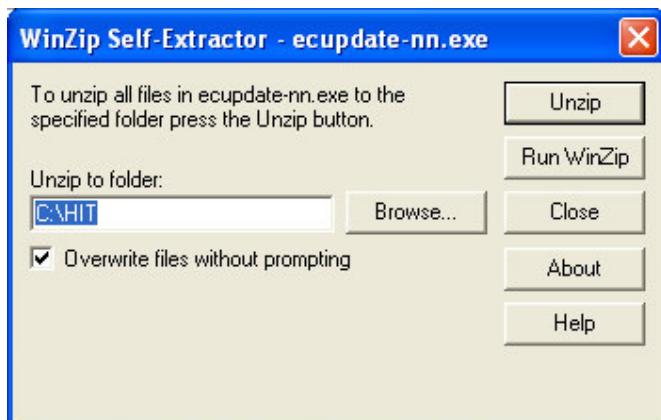

1. Close any other programs you are running before attempting to the install easyOSHC update
2. Insert the disk labelled “easyOSHC Update v09.77”
3. From the start menu select run
4. If you received a floppy disk, type “a:\UPD0977BBX.exe” (where a: is the letter of your floppy disk drive)
OR
If you received a CD, type “d:\UPD0977BB.exe” (where d: is the letter of your CDROM drive)
OR
If you received the update by email ‘save as’ the UPD0977BBX.zip attachment to a temporary folder and unzip or extract the embedded UPD0977BBX.exe self install file. Then click on the UPD0977BBX.exe file.
5. Press Enter

Click OK to begin the update install

Click Unzip to install the update files

V09.xx unzips to C:\HAA and not C:\HIT as shown below.

6. When the update has finished you should see an "Update Successful" message
7. Click Ok
8. Start the easyOSHC program in the same way as normal.

Version 09.77: Fixes and improvements

1. Updates the licencing procedure.

From this update forward if your licence has expired you will still receive the licence expired warning message every time you start the program. However, the program will still proceed to the menu when you press <ENTER>. Until the licence has been updated only reporting programs can be run. Attendance Entry, Calculate and Post and various other 'input' type programs will not run. This allows the printing of historical information to satisfy reporting requirements.
